

Using Accelerated Reader

You can search for books at your reading level.

The screenshot shows the Accelerated Reader search interface. At the top, there are navigation tabs: **op 10**, **Basic**, **Power**, **Visual**, **Copy Categories**, **Number**, **Barcode**, and **Brief Records**. A search bar contains the word "fiction" and a **Reset All** button is to its right. Below the search bar are five icons for refining the search: **Keyword**, **Title**, **Author**, **Subject**, and **Series**. A red arrow points from the **Subject** icon to the **Narrow your search to...** section. This section has a green header and a **Show Less** button. Below the header, a warning icon and text state "Limiters have been set...". The search filters include: **Location** (University Senior High (8886)), **Material Type** (Any Type), **Reading Level** (From 4 to 6), **Interest Level** (From Unlimited to Unlimited), **Reading Programs** (Accelerated Reader), **AR Level** (From 0.0 to 20.0), and **Point Value** (From 0.0 to 130.0). Annotations include a red arrow pointing to the **Subject** icon, a brown arrow pointing to the **Reading Level** input fields with the text "Enter reading level here.", and another brown arrow pointing to the **Accelerated Reader** dropdown with the text "Select Accelerated Reader".
